# PHASE I—WHAT WE NEED

View from Trenton St. of the corridor

View JFK of the corridor/façade improvements

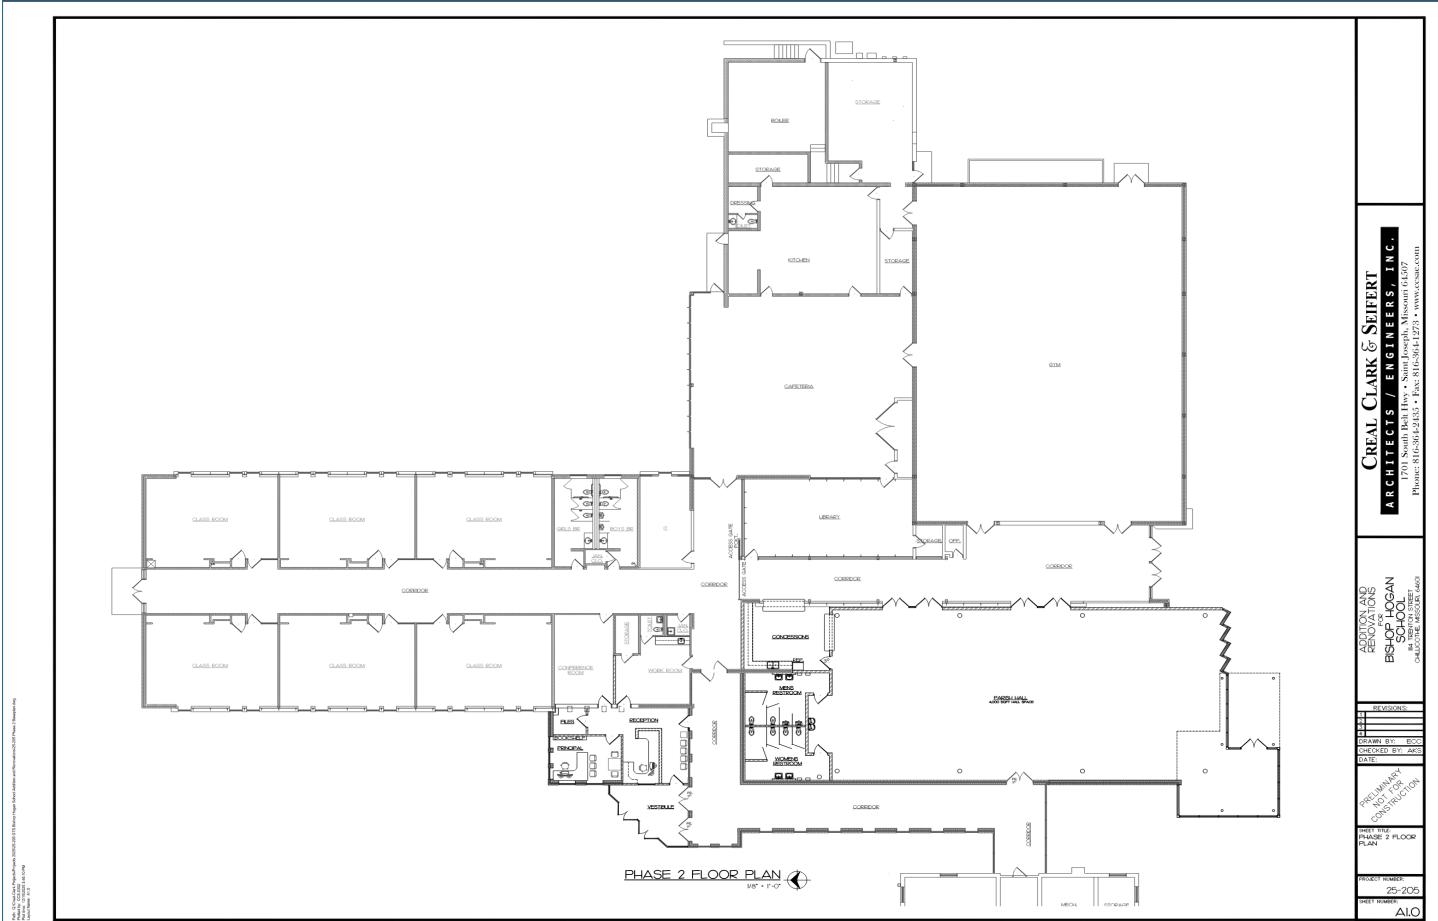

## Phase I Objectives

- Fully secured corridor that connects the existing two buildings together and allowing free movement within the entire campus.
- Façade repairs to replace existing window walls
- Roof improvements to add 20-30 years to the life of the roof
- Electrical, plumbing, and HVAC improvements
- Interior classroom improvements

## Phase I Cost Estimates

- Corridor construction ~ \$420,000
- Renovations, repairs, and improvements to the existing 1957 school building ~ \$2,000,000
- The estimate for the renovation, etc. is fluid and will be done based on what we need to do to the building vs. what we would like to do. Therefore that cost could end up being lower.
